PROFESSIONAL EXPERIENCE

UI/UX Design — Senior Manager
Sep 2024 – Jan 2026

IBM India Software Labs

AI UX Governance | Human-in-the-Loop AI | UX-as-a-Service Re-Org | Hiring & Promotions

- Spearheaded the UX transformation of enterprise B2B software by integrating generative AI and agentic workflows (IBM Watson), accelerating complex user task completion from **14.2 hours to 3.6 hours**.
- Restructured and scaled a multidisciplinary organization of **14+ UI/UX designers** into an agile **UX-as-a-Service model**, driving hiring, establishing career ladders, promoting 5 senior designers into leadership, and maintaining **100% retention**.
- Architected 3-tier Human-in-the-Loop (HITL) confidence gates and proactive AI security remediation workflows, cutting threat triage from **4.1 hours to 43 minutes** across 140,000+ enterprise tasks.
- Partnered with global product management and engineering executives across the US and Europe to align product roadmaps with enterprise accessibility and human-oversight governance.

UI/UX Product Design Manager
Jul 2021 – Aug 2024

Zebra Technologies

Enterprise Mobility & IoT | Team Scaling & Hiring | Performance & Exit Mgmt | Agile / PI Planning

- Directed UX strategy and end-to-end execution across B2B mobile devices, enterprise cloud consoles, and industrial scanner telemetry platforms serving **38,000+ rugged Android endpoints**.
- Built and scaled high-performing UX teams from the ground up — leading hiring, mentoring, rigorous performance turnaround (PIPs and decisive exit management of underperformers), and quarterly **Program Increment (PI) planning**.
- Designed high-contrast, gloved-touch ergonomic workflows for warehouse and retail operators, dropping Bluetooth scanner pairing failures by **84%** and reducing Tier-1 support tickets by **33%**.

UI/UX Senior Specialist
Oct 2020 – Jul 2021

ZF Wabco

Automotive Cockpit UX | Driver Distraction Safety | Fleet Telematics | Simulator Usability

- Spearheaded UX/UI design for next-generation commercial vehicle digital cockpit displays and fleet management platforms in collaboration with German engineering headquarters.
- Reduced average driver glance duration from **2.8 seconds to 0.94 seconds** (well below the 1.2s safety ceiling) through 3-tier hierarchical alert triage and high-contrast visual hierarchy.
- Led contextual driver research and simulator usability testing, reducing critical route navigation errors by **18%** across 80,000+ commercial transport vehicles.

UI/UX Designer
Jul 2019 – Sep 2020

Ericsson Global

Enterprise CPQ Platform | Complex Data Workflows | UX Strategy Workshops | Information Architecture

- Replaced a fragmented 14-tab legacy Excel pricing process with a unified, keyboard-first enterprise CPQ deal platform for multi-million-dollar 5G telecom network bids.
- Slashed enterprise quote turnaround time from **6 days to 42 minutes** while eliminating manual pricing formula errors and achieving **94% organic adoption** within 30 days.
- Conducted cross-border UX discovery workshops with Swedish product stakeholders to establish scalable UI component libraries and high-density data visualization standards.

PORTFOLIO & CASE STUDIES

5 Enterprise Case Studies: End-to-end UX flows, production UI screens & business impact.

10-Slide Leadership Deck: Org scaling, DesignOps & AI UX governance.

60s Video Briefing: Personal executive introduction.

Open Live Portfolio Website ↗

LEADERSHIP & UX PILLARS

Design Strategy: Product Vision, Service Blueprints, Multi-Brand Design Systems, DesignOps.

User Research: Contextual Inquiry, Simulator & Lab Usability Testing, Journey Mapping, Heuristic Audits.

Executive Operations: Cross-Geo Stakeholder Alignment, Engineering Handoff Governance, Budget & Vendor Management.

TECHNOLOGY & AI STACK

AI & Automation: Microsoft Copilot, ChatGPT Enterprise, IBM Watson, Google Stitch, NotebookLM, Google AI Studio, Gemini.

Design & Prototyping: Figma, Miro, Mural, Adobe Creative Cloud.

Product Operations: Jira, Monday.com, Confluence, Dual-Track Agile.

Analytics & Testing: UserTesting, Hotjar, Google Analytics.

Standards & Compliance: WCAG 2.2 AA, European Accessibility Act (EAA), ISO 26262, GDPR Privacy-by-Design.

Lead UI/UX Designer

Sep 2017 – Jul 2019

NP Compete Technologies

End-to-End Product Design | Design Team Leadership | Client UX Roadmaps | UI Pattern Libraries

- Directed end-to-end product design cycles, managing sprint planning, resource allocation, and a team of UI/UX designers to ensure timely delivery of high-fidelity interactive prototypes.
- Led customer requirement gathering sessions, acting as the primary UX liaison to translate complex business requirements into actionable product design roadmaps.
- Facilitated stakeholder UX workshops and user research to establish foundational style guides, reusable UI patterns, and intuitive information architecture.

EARLIER EXPERIENCE

Freelance UI/UX Designer

May 2015 – Aug 2017

Designed end-to-end mobile applications, responsive web platforms, interactive wireframes, and usability flows for international startup and SMB clients.

Creative Head • Titi Technologies

May 2010 – Apr 2015

Led a multidisciplinary creative team across digital product UI, brand identity systems, and interactive mobile application experiences from concept to App Store launch.

Senior Software Engineer • Infosys Technologies

Jan 2006 – Apr 2010

Developed, customized, and tested enterprise banking software modules for Finacle Universal Banking, building a strong technical foundation in front-end engineering and enterprise workflows.

AWARDS & RECOGNITION

Samsung: Awarded 10-Year US Business Visa for driving global healthcare UX research.

Ericsson: Spot Award for UX innovation culture & 1st Place in Global Hack-fest Optimization Contest.

Consumer Impact: Designed *"Greedy Jump"* iOS game achieving 80,000+ organic downloads.

UX Challenges: 1st Place Winner in MockingBOT & UP Labs Global Design Contests.

EDUCATION

B.E. Information Technology

Bachelor of Engineering • Anna University
